EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows: in claim 16, line 1, after "claim", delete "16", and insert - -15- -.

The amendment correct a typographical error.

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: claims 1-16 are allowed over the prior art of record. Reasons for allowance can be found in Applicant response of 7/15/04. In claims 1 and 11, the term three dimensional structures have been interpreted as equivalent to "membrane", as defined in the specification. The membrane "self-retaining" (within said housing) property is considered to be inherent of the in situ membrane formation by phase inversion, which includes the precipitation step, since the membranes formed separately, and installed within the housing require additional support (as disclosed in the specification page 10). Considering all these limitations as whole, the invention of claims 1-16 are not disclosed or suggested in the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
